

No. of Functional Features Included in the Solution

Date	30 September 2026
Team ID	[Your Team ID]
Project Name	AI BlogNest
Maximum Marks	5 Marks

Functional Features Overview:

This document lists all the functional features included in the AI BlogNest project solution. Each feature is described with its purpose, implementation status, and contribution to the overall solution.

S.No	Feature Name	Feature Description	Module / Component	Status	Marks Contribution
1	User Registration	New users create an account with name, email and bcrypt-hashed password	authController.js	Done	12%
2	User Login	Registered users log in with email/password and receive a JWT token	authController.js	Done	12%
3	Authenticated Profile	Logged-in users retrieve their own profile using a Bearer token	authController.js	Done	12%
4	Create Blog	Authenticated users create a new blog with title, content, category	blogController.js	Done	12%
5	Get All / Single Blog	Public endpoints list all blogs or fetch one blog by ID	blogController.js	Done	12%
6	Update / Delete Blog	Authenticated users update or delete only their own blog	blogController.js	Done	12%
7	AI Blog Generation	Generates a full blog from a topic + category using Gemini AI	aiController.js / geminiService.js	Done	12%
8	AI Blog Summarization	Summarizes existing blog content into a short summary using Gemini AI	aiController.js / geminiService.js	Done	12%

Feature Summary:

Metric	Count / Value
Total Features Planned	8
Total Features Implemented	8
Core / Must-Have Features	6 (Registration, Login, Profile, Create, Read, Update/Delete)
Additional / Nice-to-Have Features	2 (AI Generation, AI Summarization)
Features Tested & Verified	8 / 8 (via Postman)

Feature Category Breakdown:

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	0 (API-only)	N/A — AI BlogNest is a headless REST API tested via Postman
2	Backend / Logic	4	Blog CRUD, input validation, centralized error handling
3	Database / Storage	1	PostgreSQL users & blogs tables with foreign key relationship
4	API / Integration	2	Gemini AI blog generation, Gemini AI summarization
5	Security / Authentication	3	JWT authentication, bcrypt password hashing, protected routes
